Our Mission and Values

Defend Japan's Cyber Security.

~Create a society where no one left behind~

Company Strengths

(1) The world's No.1 white hat hackers team

(2) Visualize the security status of Japan as a whole

Works with Government

We provide training about offensive security for the Ministry of Defense, Cyber Defense Department

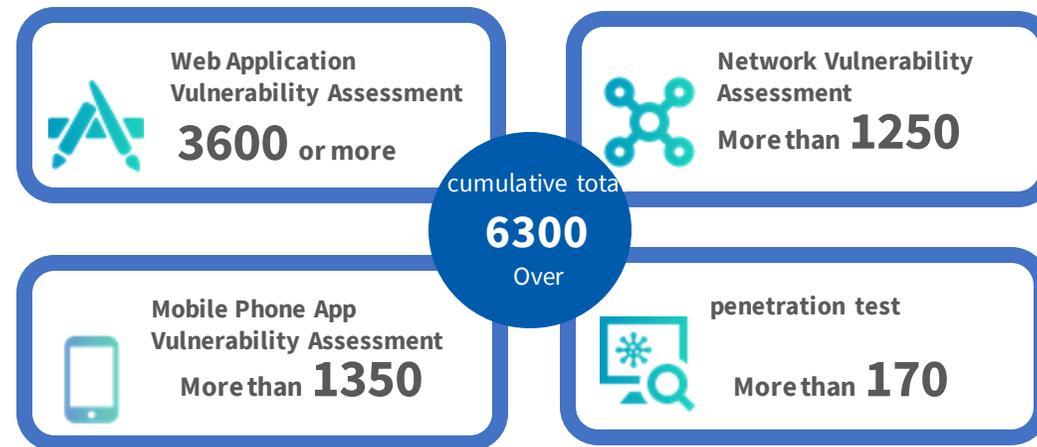

We received may appreciation for security technical assistance from the National Police Agency

- *1: "GMO Cyber Security by ierae Conducting penetration testing training for Japan Self-Defense Forces" (2/1/2023)
- *2: "Received a letter of appreciation from the National Police Agency" (23/1/30)

Penetration / Red Team

Over the past 10 years, we have provided penetration testing and red teaming services for many customers. Our success rate for past projects has been over 90%. This means that many Japanese companies' security levels are not perfect.
